APPLICANT NAME, ADDRESS AND PERMIT NUMBER: SHODON; P.O. Box 860, Gloucester, VA; GW0050700

NAME AND LOCATION OF WATER WITHDRAWAL: Mobile Estates Public Water System; Lot 1, Mobile Lane, Williamsburg, VA

PROJECT DESCRIPTION: Mobile Estates has applied for a new permit for an existing public water supply in Williamsburg, Virginia. The permit would allow the applicant to withdraw an average of 10,951 gallons per day. The ground water withdrawal will support a public water supply for Mobile Estates. The proposed withdrawal will utilize the Chickahominy Piney Point aquifer at a depth between 225 feet and 280 feet below the land surface at the withdrawal site. An aquifer is a body of rock or layer of sediment in the ground in which ground water is stored and transported. DEQ has made a tentative decision to issue the permit.

HOW A DECISION IS MADE: After public comments have been considered and addressed by the permit or other means, DEQ will decide whether to issue the permit or to conduct a public hearing. DEQ may hold a public hearing, including another comment period, if public response is significant and there are substantial, disputed issues relevant to the proposed permit. If there is a public hearing, the State Water Control Board will make the final decision.

HOW TO COMMENT: DEQ accepts comments by e-mail, fax or postal mail. All comments must be in writing; contain a brief statement on how the proposal affects the person commenting, other users or the aquifer; and be received by DEQ during the comment period. The public also may request a public hearing. If a public hearing is requested, the written comments should also include the reason for holding a hearing and related factual concerns.

TO REVIEW THE DRAFT PERMIT AND APPLICATION: The public may review the documents at the DEQ Tidewater Regional Office every work day by appointment.
